

I would like to see new legislation that protects constituents, by testing technology and proving it is safe before it is rolled out. Our voices should not just be heard, there also needs to be accountability.

SB1451, allows for profit companies to invade residential neighborhoods without local consent. Constituents have not been fully informed and are not allowed to choose a safer alternative, like fiber optics, over wireless.

I will fight for local control and do everything in my power to protect the families in Illinois.

Respectfully,

A handwritten signature in black ink, appearing to read 'Tom McCullagh', written in a cursive style.

Tom McCullagh  
Republican Nominee  
IL State Senate District 49
